Peanut Processing Plant

1. The Best Raw Material (Groundnut) Is Procured From Farmers & Valuable Suppliers.
2. Proper Sampling Is Carried Out Based On The Buyer's Criteria & Industry Quality Standards And Is Further Shifted To Processing Area.
3. After Raw Material Procurement, The Process Of Obtaining The Best Peanuts Goes Like This :
Phase 1 : Pre-Cleaning Phase 2 : De-Shelling
Phase 3 : Color-Sorting Phase 4 : Final-Grading
Whole Process Is Operated Under Fully Automatic Machineries. Highest Standard Are Maintained At Each Step, To Ensure Best Quality.
4. Once The Process Is Complete, Peanuts Are Stored In Big Storage Hoppers.
5. Packaging & Dispatch Is Done As Per Customer's Requirements.
